WHO WE ARE

EXPERTISE

COMPETENCE

SOLIDITY

Zhermack. The guarantee of a name.

01.

**MAKING AN IMPRESSION,
ALL AROUND THE WORLD.**

The **Zhermack Group** is an international provider of cutting-edge materials and solutions for the dental, industrial and wellbeing sectors. Founded in 1981, today it is part of the Dentsply Sirona corporation.

02.

**WE START FROM RAW
MATERIALS, WHEREVER
WE ARE GOING.**

Zhermack is one of the few companies in the dental sector to possess its own plant for synthesising polymers, catalysts and cross-linking agents, which enables us to act directly on the properties of the raw materials and semi-finished products, giving the freedom to customise products to meet client requirements.

03.

**THREE DIVISIONS.
ONE SHARED VISION.**

Zhermack represents a Centre of Excellence for silicons and alginates production. The experience and technologies developed in the dental sector, that still represents our core business, have been extended to the industrial and wellbeing sectors.

WHAT WE OFFER

WHAT

Cosmetic alginates

Zhermack experience in the dental sector has allowed the Company to develop high quality cosmetic alginates greatly appreciated by cosmetics companies. Zhermack alginates are originated by natural raw materials like brown seaweeds collected along the Norwegian coast.
